

# M5900Rve

## The Direct Thermal Printing Expert - SATO's M5900Rve

The M5900Rve offers direct thermal printing exclusively. Without the need for carbon ribbon, money and installation time are saved, ensuring economical printing. With a robust design and the enhanced processor, the M5900Rve is ideal for industrial use, where speed, quality and durability are demanded.

- ✓ *Direct Thermal*
- ✓ *Industrial Durability*
- ✓ *High Speed Throughput!*
- ✓ *Multilingual Display*
- ✓ *Powerful Memory*
- ✓ *Windows® Compatible*

**Enhanced** - Offering high-speed data transmission and unrivalled processing power, the M5900Rve printers will handle your label designs with speed and ease. Whether text, barcodes or graphics, quality printing is assured.

**Robust** - A robust construction, designed for industrial surroundings, makes the M5900Rve ideal in countless surroundings, from logistics, production, warehousing to retail.

**Flexible** - Compatible with Windows®, users have the choice of printing from any Windows® based applications, using the SATO SBPL programming language or printing from a label design software program.

**Effortless** - Designed with the operator in mind, the easily readable LCD display is available in a selection of languages.

**Easy Connectivity** - With a wide range of standard plug-in interfaces to choose from, the M5900Rve connects to almost every system.
